

Receipt & Documentation Requirements

Compliance Team | Version 1.3 | Effective: March 2026

1. When Receipts Are Required

A valid receipt must accompany every expense claim above the category-specific threshold. For certain categories (Air Travel, Hotel, Conference), receipts are mandatory regardless of amount. The receipt must be uploaded at the time of line-item creation.

Category	Receipt Threshold (INR)	Mandatory?
Meals & Dining	500	Above threshold
Air Travel	0	Always
Train Travel	0	Always
Taxi / Cab	200	Above threshold
Hotel	0	Always
Office Supplies	500	Above threshold
Daily Commute	1,000	Above threshold
Conference	0	Always
Client Entertainment	0	Always

2. Valid Receipt Criteria

Every receipt must contain ALL of the following:

- Merchant/vendor name and address
- Date of transaction (matching the claimed expense date)
- Itemized list of goods or services purchased
- Total amount charged (including taxes and fees)
- Payment method indicator (card last 4 digits, UPI ID, or cash notation)
- GST/tax registration number (for amounts > INR 2,000)

3. Acceptable File Formats

Supported: PDF, JPEG, PNG, WebP

Maximum size: 10 MB per file

Resolution: Minimum 300 DPI for photographed receipts

Legibility: All text must be clearly readable. Blurry or truncated receipts will be rejected.

4. Digital Receipts

Email confirmations, e-tickets, and digital invoices are accepted if they contain all required information. Screenshots of payment apps (GPay, PhonePe, Paytm) are accepted only when the full transaction detail is visible including merchant name and amount. Cropped screenshots will be rejected.

5. Missing Receipt Affidavit

If an original receipt cannot be obtained (lost, not issued, etc.), the employee must:

1. Complete the Missing Receipt Affidavit form
2. Provide alternative evidence (bank statement, booking confirmation)
3. Obtain department head signature
4. Attach the signed affidavit in place of the receipt

Note: Missing receipt affidavits are limited to 3 per quarter per employee. Exceeding this limit requires HR approval.

6. Receipt Verification Process

The Receipt Intelligence Service performs automated checks on uploaded receipts: duplicate detection (SHA-256 hash), format validation, OCR text extraction, and amount cross-verification. Flagged receipts are routed for manual review.
